

Why You Networked in the First Place.

Application Networks™

powered
by

Sierra Atlantic, the Application Networks Company™, accelerates the deployment of collaborative commerce by automating business processes across the extended enterprise. We provide pre-built solutions software that intelligently connects applications and platform infrastructure across operations, customers, and suppliers.

Application Networks™ are co-engineered with application leaders like Oracle, Agile, Siebel, Nuance, and Broadbase, and platform infrastructure leaders like Vitria and WebMethods. Application Networks™ deliver standard solutions for customer demand-driven applications across extended supply chain networks.

Realize why you networked in the first place. Contact Sierra Atlantic to see the power of application networks™
